my experience book

openhouse
early years

little one's name : _____

parent/ caregiver's name: _____

parent toddler club

1 - 3 years • for parent & child

our little diary

A page to record the little things, the big things & everything in between.

This was peak cute

Something my child did that I' m still smiling about:

New things we tried

A new "first" from this season of life:

Favourites right now

Our favourite way to play on repeat:

learning by doing together

Little feelings

What helps my child feel calm, safe, and close:

Proud moments

A moment when my heart grew two sizes:

A note from me

Something my little one is teaching me (without trying):

Welcome to the Parent-Toddler Club

Your child's early years & your journey as a young parent are a remarkable phase of **curiosity**, **growth**, & **becoming** and we're happy to celebrate this time with you.

The **Parent-Toddler Club** is a shared learning experience for children aged 1-3 years and their parent or caregiver. Children explore through play, with adults participating alongside to build connection.

For families who believe in **learning by doing,** the Parent-Toddler Club is a safe, joyful, and unhurried place that supports parents through the early years.

Learning unfolds through

- art
- sensory
- music & storytelling
- movement
- special playdates
- parenting sessions

monthly celebration playdates on saturdays

Your Journey with Parent - Toddler Club

Start Small

Try a session to experience the Openhouse way together.

Become part of the club

Regular participation builds the routine and includes the:

Parent - Toddler Club Experience Book

A very special book you maintain through the program, bringing together our sessions and a personal record of your parent-child learning-by-doing journey.

Grow into preschool

Over 3–6 months at the Parent-Toddler Club (often at ages 18 - 24 months) children settle and stay longer; when separation feels easy, we support the transition to preschool - the **same approach, spaces, and people.**

art

sensory

music &
storytelling

movement

art

big goals

Hands-on, process-based exploration of colours, texture, tools, and surfaces

- Spot colours through hands-on play
- Try simple art tools
- Create lines, dots, and patterns

art. playkit

Colours to touch

Colour lives beyond paint! We borrow from the earth, grab grippy crayons, and much more.

Not a brush

A brush is only one way to make art –
we explore everything else that isn't one.

Papers & play surfaces

Art isn't limited to paper. It unfolds across
surfaces that hold, spread, reflect, and transform.

art. tracker

Repetition strengthens learning.

GOALS ✓ *on observing*		Spot colours through hands-on play	Try simple art tools	Create lines, dots, patterns
mix it up 	**session 1** date:_____

sensory

big goals

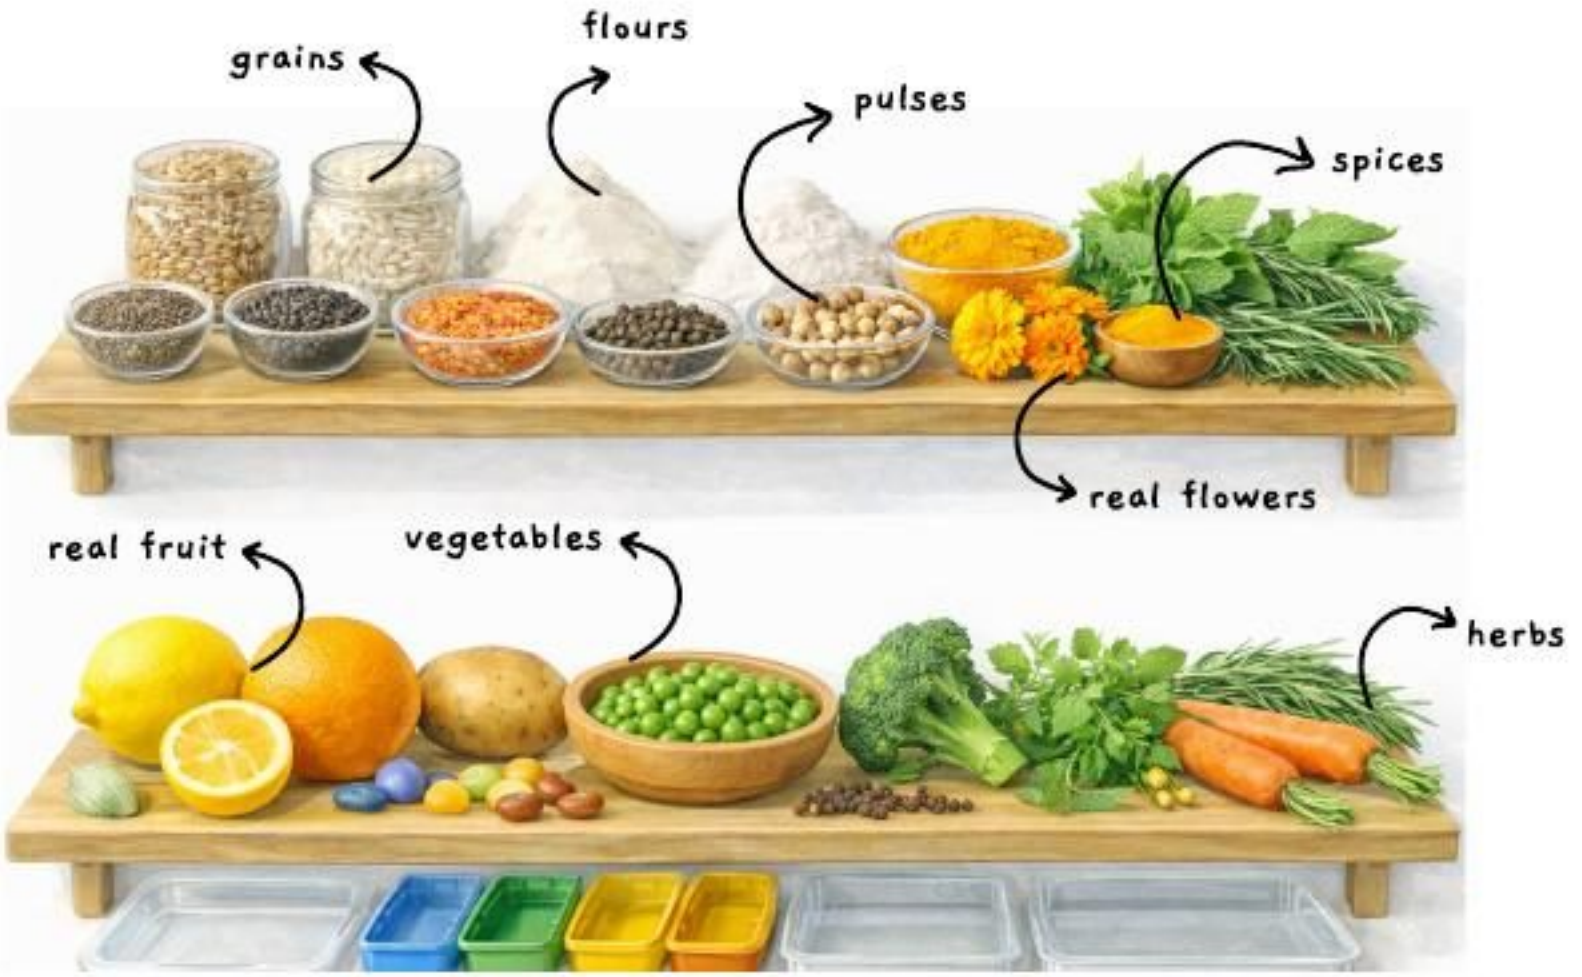

Hands-on, tactile play with real-world materials

- Adapt to new tastes & smells
- Explore different textures
- Notice differences in food & nature

sensory. playkit

Kitchen Alchemy

Where everyday food becomes texture, colour, scent, and transformation.

Found in Nature

Collected, not manufactured–textures borrowed from the outdoors.

Little Hands, Real Tools

Everyday tools scaled down for curiosity, control, and confidence.

music & storytelling

big goals

Hands-on, process-based exploration through rhythm, sound and movement

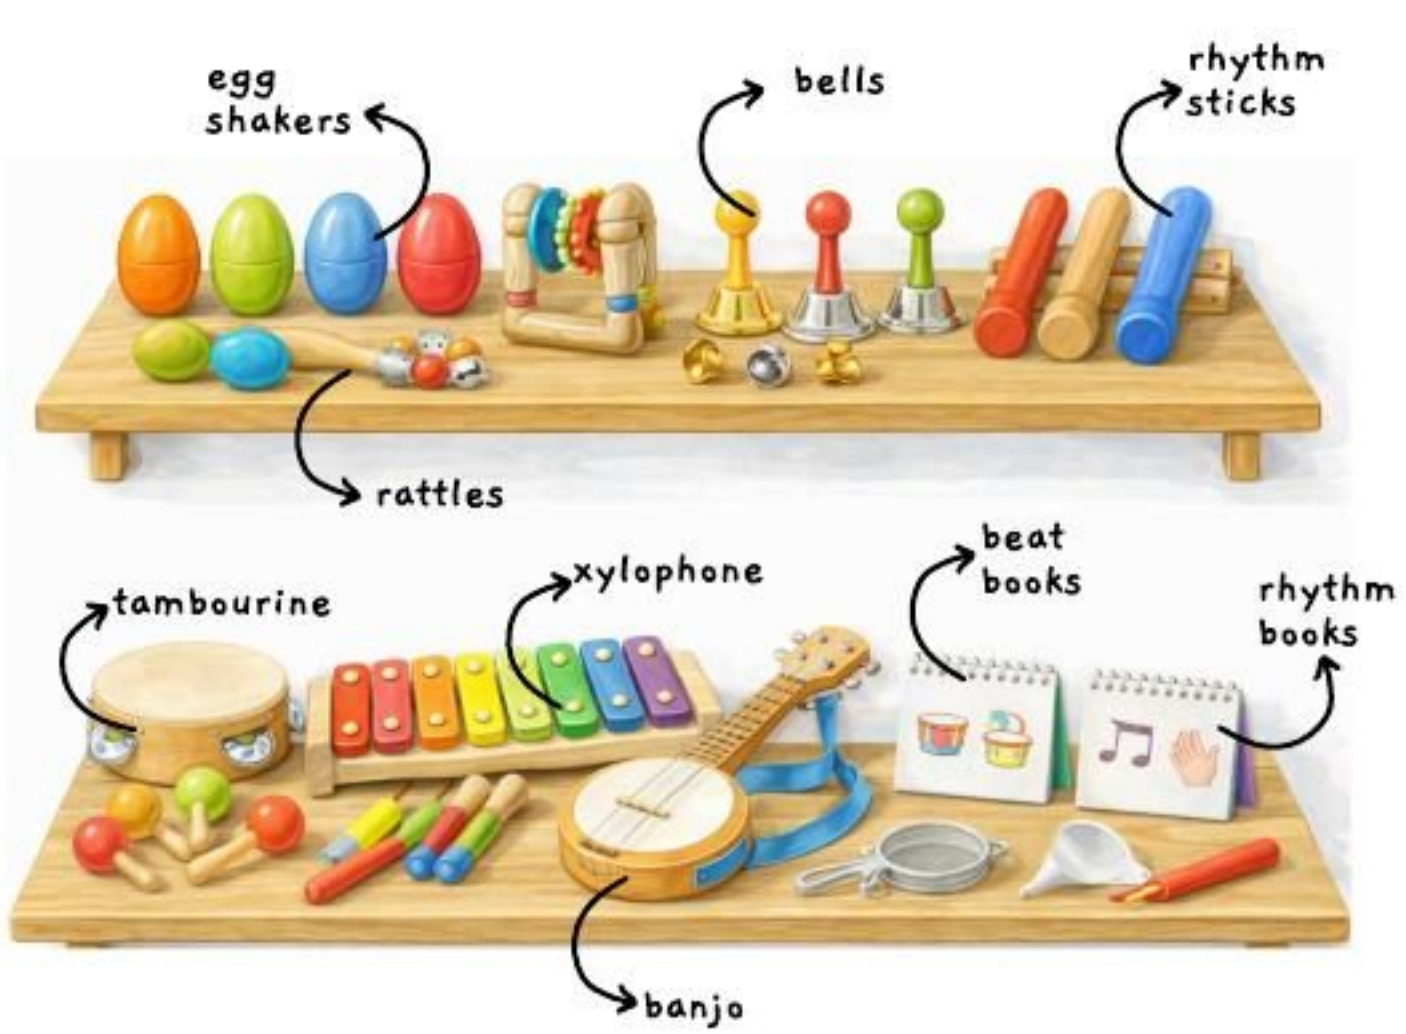

- Sing & act familiar songs/rhymes
- Make sounds & hear/see what happens
- Copy everyday sounds

music & storytelling.

playkit

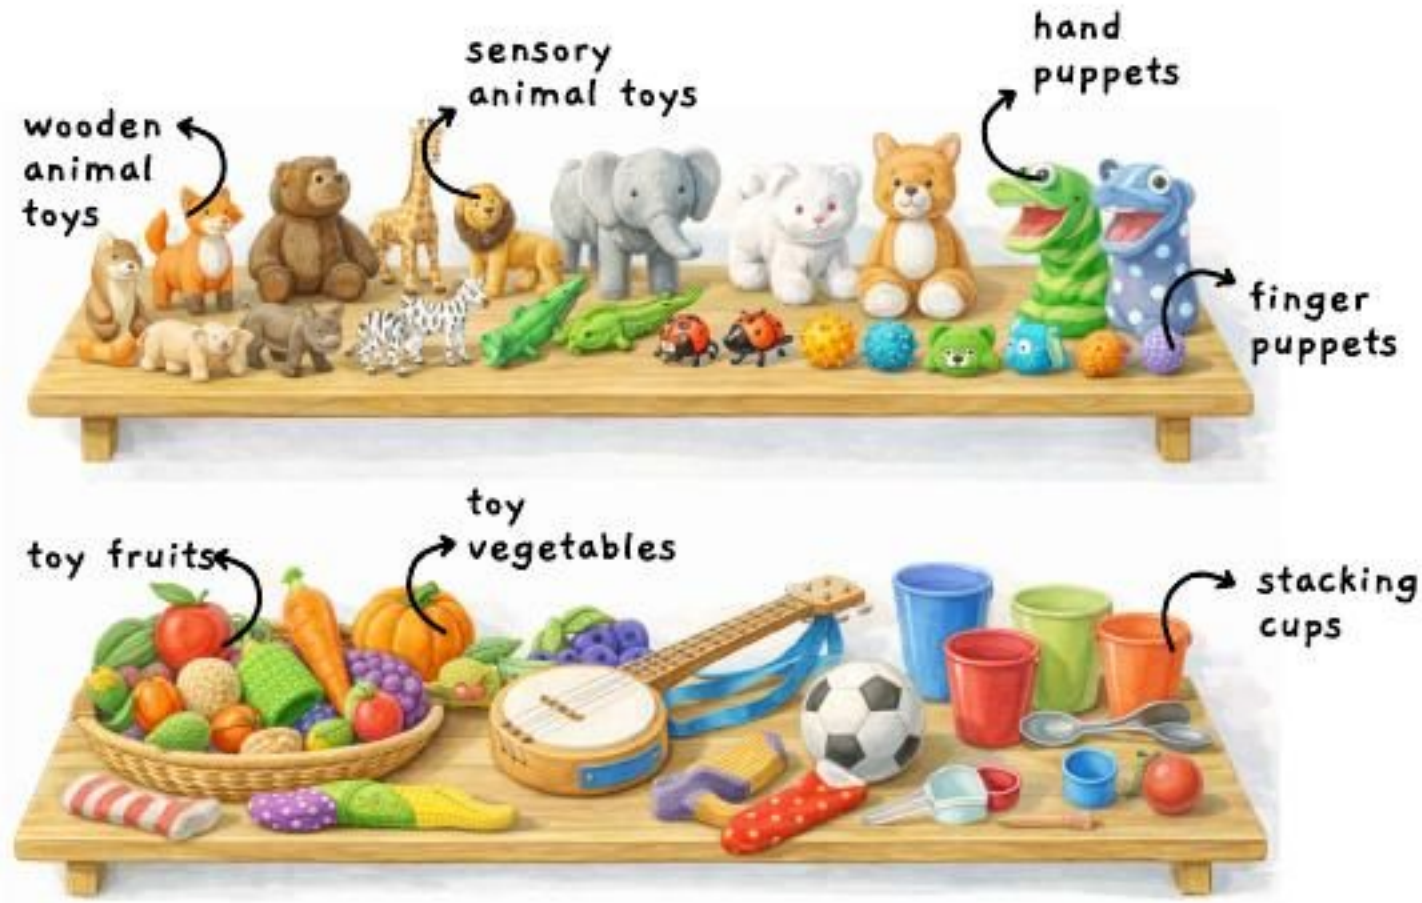

Baby Instruments

Tiny instruments, big joy – shake, tap, ding, and repeat (again and again).

Storytelling Through Props

When the props come out, the song turns into a scene.

Props to Move to Music

Scarves, ribbons, and big swirls, music you can see in the air.

movement

big goals

Whole-body play that builds confidence, coordination, and strength

- Move, climb & balance using whole body
- Move to sounds & simple cues
- Practice little hand & finger control

movement.
playkit

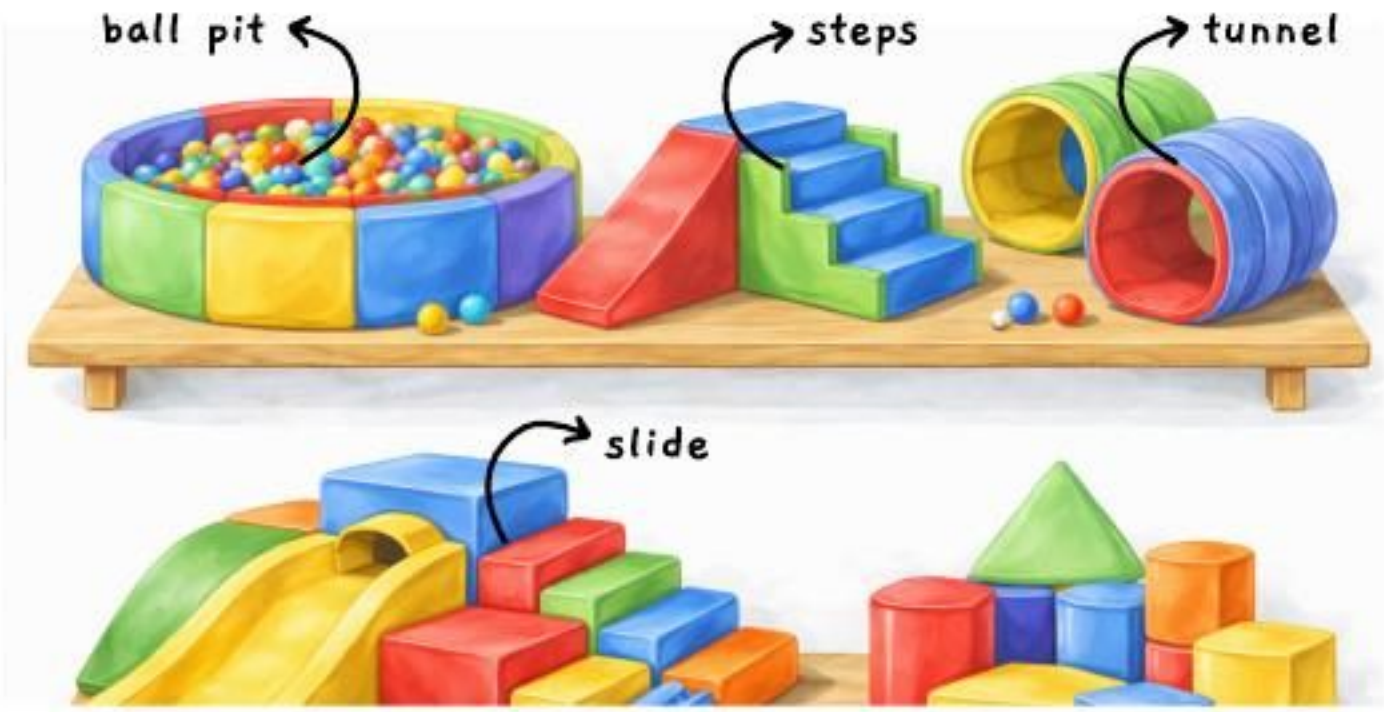

Large Movement Toys & Props

Big, floor-based materials that invite climbing, balancing, crawling, lifting, and whole-body movement.

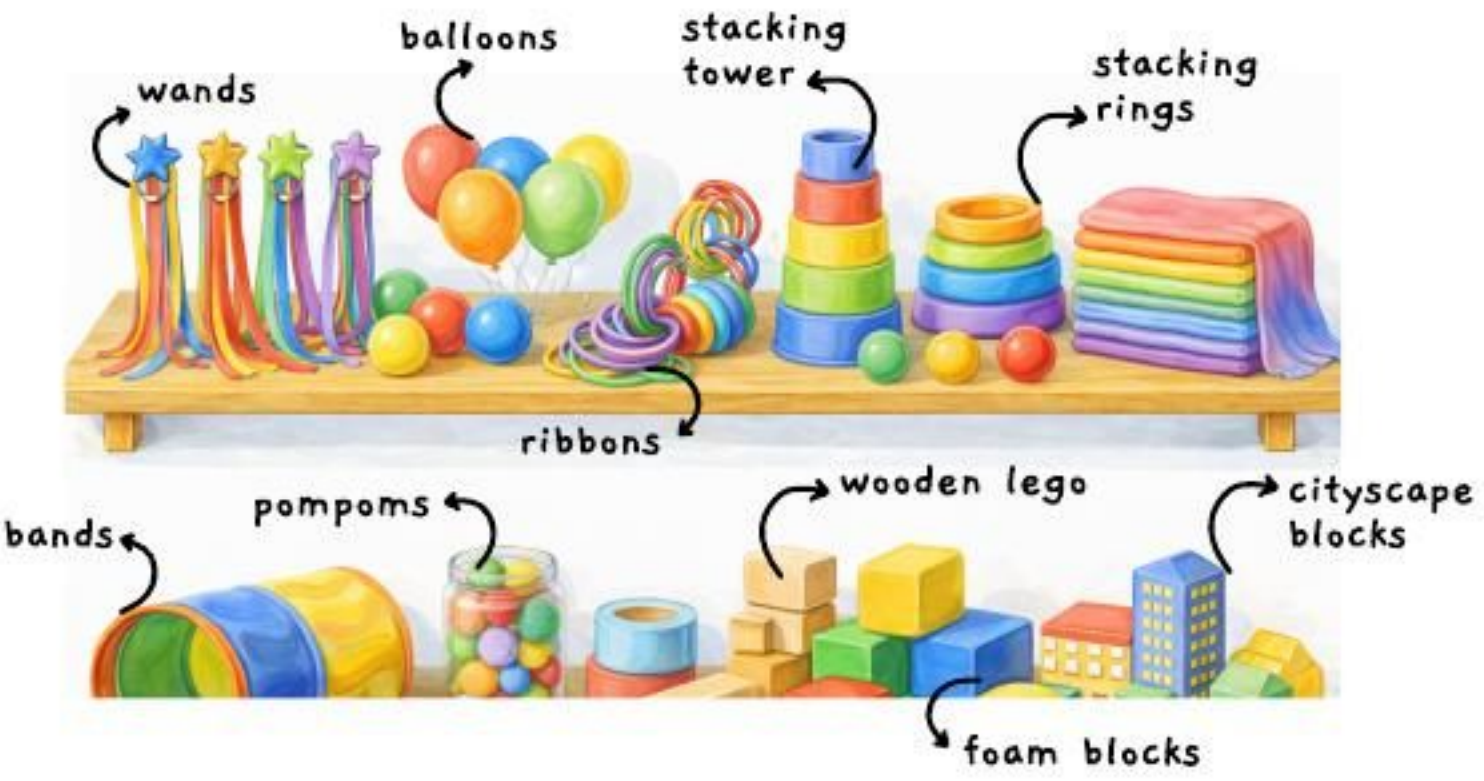

Soft Play Equipment

Big, cushioned structures for climbing, crawling, and sliding–supporting gross-motor skills and safe risk-taking.

Small Movement Toys & Props

Small, open-ended materials for grasping, sorting, threading, and building–supporting fine-motor control and focus.

movement. tracker
